

Ivan Fernando Galaviz-Mendoza

SOFTWARE ENGINEER

+52 (133) 1234-0239 | galavizivan23@gmail.com | ivanovishado | ivanovishado

"A human being passionate about developing the next-gen tools that will enhance human-computer interactions."

Work Experience

Wizeline

Guadalajara, Mexico

SOFTWARE ENGINEER II

Nov. 2019 - Present

- Working on the Authorization/Identity flow for one of the biggest broadcasting companies in the U.S.
- Interview candidates continuously.
- Mentor newcomers and junior engineers to help them adopt best practices and develop their soft skills.
- Plan, organize, and execute initiatives to help community members to experience real interviews in a safe environment.
- Give courses and talks to the community about programming languages, trying to identify potential engineers and motivate them to start their journey in the IT industry.
- Contribute to internal development projects to improve different processes.
- Make continuing efforts to begin my career in Data Engineering/Science.

SOFTWARE ENGINEER

Nov. 2018 - Nov. 2019

- Developed a chatbot for the biggest real estate company in the U.S.
- Contributed sporadically to the platform that manages all the chatbots in Wizeline.
- Gave courses to High School students to implement chatbots easily.

SOFTWARE ENGINEER TRAINEE

Aug. 2018 - Nov. 2018

- Worked as a Full-Stack Web Developer in the most used internal project. Developed significant new features and refactored a lot of legacy code.
- Promoted to a full-time position in two months.

Skills

Languages	Spanish, English (IELTS Academic 7.0)

Education

University of Guadalajara

Guadalajara, Mexico

BACHELOR OF COMPUTER ENGINEERING

Aug. 2013 - Jun. 2018

- Terminal Project: I made a news scraper for Mexican news websites. It scrapes news daily from around 10 newspapers of each state of Mexico, has a web app that lets a user query for desired news, and classifies news as violent or non-violent, according to their content.

Saturdays.AI

Guadalajara, Mexico

PARTICIPANT

Mar. 2020 - Jun. 2020

- Participated in an AI Boot Camp where I, alongside a team, developed a project about applying machine learning to predict crimes for bikers in Guadalajara, Mexico.

National Polytechnic Institute

Mexico City

SUMMER RESEARCH INTERNSHIP "PROGRAMA DELFÍN"

Summer 2018

- Helped during the development of an emotion detector classifier for social networks.

Research Institute of Applied Mathematics and in Systems, UNAM

Mexico City

SUMMER RESEARCH INTERNSHIP "PROGRAMA DELFÍN"

Summer 2017

- Created a chatbot that helped around 15 people to improve their English and experience with computer programs.

Extracurricular Activity

DataLab Community

MEMBER OF "VIOLENTÓMETRO-ONLINE TEAM"

- Developed a prototype to detect Spanish hate-speech against women.
- Won 3rd place against approximately 20 teams from all around Latin America.

Guadalajara, Mexico

Jun. 2020 - Sep. 2020

Saturdays.AI Guadalajara

MEMBER OF "SILVER TEAM"

- Developed a project to estimate the correlation between Guadalajara's crimes and its public bike system.
- Contributed by always having high-quality code and enabled a distributed team to maintain it effectively.
- Won 3rd place in an internal contest against seven teams presenting their social-impact machine learning projects.

Guadalajara, Mexico

Mar. 2020 - Jul. 2020

Technovation Girls

MENTOR

- Successfully mentored two teams, one at the High School level and the other one at the Jr. High School, to develop mobile applications to contribute to their community by solving social problems.

Guadalajara, Mexico

Feb. 2019 - Present

University of Guadalajara

DATA ANALYST VOLUNTEER

- Analyzed data collected from students, looking to improve academic courses.
- Created a system that lets a user recollect data from surveys semi-automatically.
- Helped with managing courses and delivering homework notes to students.

Guadalajara, Mexico

Jan. 2018 - Nov. 2018
